

SECUREGUARD+

GRAMM MESH SYSTEMS - SCHOOLS, PLAY AREAS, COMMERCIAL BUSINESS, INDUSTRIAL SITES, PRODUCTION PLANTS

Developed with the same security features of SECUREGUARD-358, with the addition of a V-beam to prevent flexing and to retain a rigid and straight fenceline. SECUREGUARD+ is used to substantially reduce intrusion and vandalism.

A high security fence system providing excellent protection against vandalism and intrusion.

SECUREGUARD+ has been specifically designed to give an aesthetic appearance yet providing a high degree of security.

Standard sizes

Fence height (m)	Panel size H x W	Wire diameter (mm)	Number of beams	Post centres (mm)	Post Section RHS (mm)
1.8	1800 x 2515	4	2	2540	60*60
2.0	2000 x 2515	4	2	2540	60*60
2.4	2400 x 2515	4	2	2540	60*60
2.7	2700 x 2515	4	2	2540	80*80
3.0	3000 x 2515	4	2	2540	80*80

Panels

Manufactured using 4mm wire welded at each intersection complete with pressed beams creating a strong and durable panel. The mesh aperture consists of a 76.2 x 12.7mm mesh spacing providing excellent see through visibility.

Post system

Standard posts are manufactured from 60 x 60 x 2.5mm Rolled Hollow Section and include stepping provisions to suit on-site conditions.

All posts include threaded inserts, leaving a clean and flush design to the rear face. Specially designed PROFIX brackets are used for quick and easy installation. Extra

length posts can be used to increase the fence heights above 2.4m.

Posts are also available hinged and with an optional clamp bar.

Applications

The SECUREGUARD+ system is suitable for sites requiring a high degree of security. Typical examples: schools, distribution centres, industrial parks, commercial businesses and production plants.

Gates

Standard gates are available or tailored-made to suit your requirements. All gates are supplied with rear hung adjustable

hinges, pad-lockable drop-bolts, multi-holed to suit site conditions complete with anti-climb protection. See our gate range for further details.

Additional security toppings

Gramm Barrier Systems supply additional toppings for security fences including razor wire coils, razor wire tape, barbed wire, rotating spikes.

We can also prepare fence posts to take electric security fence on the back and work closely with the major electric security fence manufacturers.
