Panels

Manufactured using 6mm vertical and 2no 8mm horizontal wires welded at each intersection creating a strong and durable panel. The mesh aperture consists of a 200 x 50mm mesh spacing providing excellent see through visibility!

Post system

Standard posts are manufactured from 60 x 60 x 2.5mm Rolled Hollow Section. All posts include threaded inserts, leaving a clean and flush design to the rear face.

PROFIX Twin is a specially designed clamping assembly that secures the panels in place.

Applications

The TWINGUARD system is suitable for most applications where general site demarcation is required. Typical examples: schools, public areas, industrial sites and retail outlets.

Gates

Standard gates are available or tailored-made to suit your requirements. All gates are supplied with rear hung adjustable hinges,

pad-lockable drop-bolts, multi-holed to suit site conditions complete with anti-climb protection.

See our gate range for further details.

Additional security toppings

Gramms supply additional toppings for security fences including razor wire coils, razor wire tape, barbed wire, rotating spikes.

We can also prepare fence posts to take electric security fence on the back and work closely with the major electric security fence manufacturers.
