2.4	2433 x 3005	5mm	4	3020	60*60
2.4	2433 x 2505	5mm	4	2520	60*60
3.0	3033 x 2838	5mm	4	2853	60 x60

Designed to add an aesthetic appeal to our mesh fencing product range, a high performance system complete with excellent appearance.

Posts are complete with our unique pro-fix hanging bracket which makes V**GUARD** our easiest and quickest fence to install. Many of our customers say their erectors prefer our system as they can install more metres per day and earn more money.

Panels
Manufactured using 5mm wire welded at each intersection, complete with pressed beams creating a strong and durable panel. The mesh aperture consists of a 200 x 50mm mesh spacing providing excellent see through visibility.

Post system
Standard posts are manufactured from 60 x 60 x 2.5mm Rolled Hollow Section. All posts include threaded inserts, leaving a clean and flush design to the rear face. Our unique hanging clips makes VGuard exceptionally fast to install. Specially designed **PROFIX** Securing system brackets are used for quick and easy installation. As an optional extra, a slotted 40 x 5mm flat clamp bar can be used for additional security.

Applications
The V**GUARD** system is suitable for most applications were general site demarcation is required.
Typical examples: schools, public areas, commercial businesses and retail outlets.

Gates
Standard gates are available or tailored-made to suit your requirements. All gates are supplied with rear hung adjustable hinges, pad-lockable drop-bolts, multi-holed to suit site conditions complete with anti-climb protection.
See our gate range for further details.

Additional security toppings
Gramm Barrier Systems supply additional toppings for security fences including razor wire coils, razor wire tape, barbed wire, rotating spikes.

We can also prepare fence posts to take electric security fence on the back and work closely with the major electric security fence manufacturers.
