Gramm Barrier Systems SoundBlok Range

## POLYSoundBlok® REFLECTIVE

Gramm Barriers POLYSoundBlok® Reflective noise barrier systems are manufactured from high strength reinforced polymers. The strong maintenance free structure of the product makes it ideal for Road, Rail and industrial projects.

Our system consists of highly durable rigid panels which, are rot proof and resistant to aggressive environments and compounds such as salt spray and oils all without the need for additional surface treatments throughout their operational life.

The materials of construction utilised in our POLYSoundBlok® Reflective noise barrier systems are exceptionally durable, providing years of maintenance free performance without further treatment.

Gramm Barrier systems POLYSoundBlok® Reflective barrier are constructed off site under strict quality controls providing the highest level of construction which conforms to all the latest standards required for all sectors.

Gramm Barriers POLYSoundBlok® Reflective high-density composite surfaces in conjunction with high density mineral infill panels ensure consistent high acoustic performance throughout the length of the barrier. All designs are certified to the very latest European standards.

### Applications

Road

Rail

Airport

Commercial

Industrial

Utilities

Ports

Defence

Residential

Housing

# POLYSoundBlok®

### Technical Information

- Barrier Rating: A0, B3
- Absorption: 0 Diα
- Reflection: 25 DLr
- Height: From 0.228m - 10m (Bespoke Heights available on request)
- Lengths: 1.0m - 3.0m (Bespoke Lengths available on request)
- Weight: 13.7kg/m<sup>2</sup>
- Material: Core up-cycled PVC
- Finish: 4 Standard Colours, Brown, Green, Grey & Black
- Design Life: 40 years
