Bottom of Fencing to Be	Maximum of 100 mm above final ground level
Other Requirements	PPC Colour Green RAL 6005. A full range of RAL Colours are available from Gramm Barrier Systems including marine grade and metallics

A range of options allow you to customise the innovative ArmaMeshLOUVRE fencing to meet your security needs. Each 1963mm wide panel is available in any height, and you can choose different visibility levels based on the angle of the louvres. The 80/20 option provides 80% screening with 20% visibility, while the 100/0 option provides 100% total screening with zero visibility.

The robust profiled Louvered Fence Panels are fused to a steel wire with a high electrical voltage to maximise security and durability in all conditions. There's also the option to have panels fitted horizontally or vertically, giving you complete control of how ArmaMeshLOUVRE appears.

East Sussex South East Wales & West West Yorkshire Scotland
