

# ArmaMeshSPECTATOR

## MESH FENCING

### Gramm Barrier Systems Mesh Range

When hosting any spectator sport, you should always have an appropriate barrier between the crowd and the field of play. Our incredibly popular ArmaMeshSPECTATOR spectator rail fencing creates that safe perimeter around the action, while giving spectators a strong and comfortable rail to lean on.

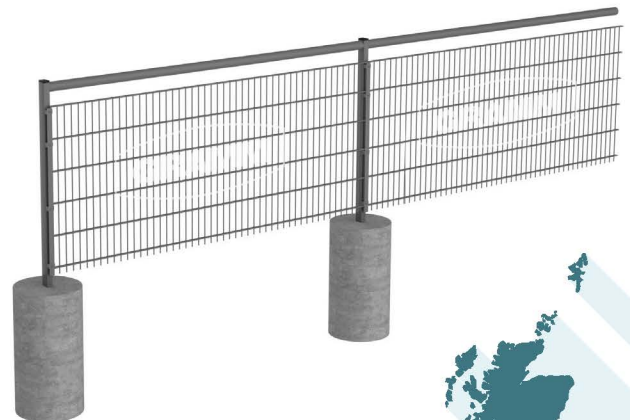

Versatile and attractive enough to be installed in school playgrounds and around running tracks, ArmaMeshSPECTATOR is incredibly simple to install thanks to its quick and easy clamp system. And if hockey or other field sports are being played, there's even an option to add a kickboard to prevent ball damage.

#### Technical specifications

Height	990mm/1190mm/1390mm
