Set Posts	Set posts in holes 300 mm diameter x 800** mm deep, filled not less than half the depth with concrete, as clause 620
Maximum Posts Centres	2520mm
Bottom of Fencing to Be	Approx. 50 mm above final ground level
Other Requirements	PPC Colour Green RAL 6005. A full range of RAL Colours are available from Gramm Barrier Systems including marine grade and metallics

Making it the perfect choice when you're looking for strong-yet-practical fencing of up to 6060mm high for your school, football ground or MUGA (multi-purpose game area).

Each steel panel features twin 8mm wires welded either side of 6mm vertical wires, making them extremely difficult to cut through or damage. The twin wires are highly rigid too, adding to the strength of the fence even when under stress from people, balls or sports equipment making it the perfect MUGA Fencing System.

Available in a wide range of RAL colour which can match up with your organisation, club or team colours. All of this comes with the peace of mind that ArmaMeshSPORT conforms to the British Safety Standards for open mesh steel panel fences.
